DERBYSHIRE  
OPEN ARTS 2023

**Created for the Derbyshire Open Arts event, Simon Bridges showcases a new series of images that evoke sense of place, time, mood and season through colour, texture and light.**

Simon Bridges moved to Hayfield in 1993 for a taste of country life. He is, apparently, older than he looks, but not wiser.

His career began as a commercial photographer, covering product pack shots, fashion, architecture, right through to album covers for bands.

He now runs a creative and marketing consultancy business and, since taking an office in Hayfield, the draw of capturing images of the local area led to the opening of Elephantstones Gallery.

Simon Bridges captures photographic images of landscapes in broad vista and textural detail. Simon has little interest in photographic technology and focuses more on composition and mood.

Simon has a permanent collection at Elephantstones Gallery all year round.
